Mirage®

Retractable Screen Systems

for windows and doors

Mirage absorbs impact.

Comfort + Energy Savings...

Mirage Retractable Screens let cool breezes in and keep flying insects and bugs out. Minimize the need for expensive air conditioning and maximize cross ventilation in your home. Mirage offers a natural cooling solution ~ a better ventilated home will not only cut energy bills but also will feel more comfortable.

This is a professionally installed screen system that disappears into a compact housing and doesn't interfere with window or door functioning. Mirage Screens are virtually out of sight when not in use and can remain installed year round.

Versatility...

Mirage Retractable Screens can be made to fit almost any door or window application, including in-swing or out-swing doors, patio doors, entrance doors and French double doors. Door heights up to 110" and door widths up to 55" are available.

Single In-Swing

For use on windows, the maximum housing length available is 75" with a maximum 'pull' length of 55". Window screens can be mounted horizontally or vertically.

French Double Out-Swing

Mirage rolls away to offer unobstructed views unlike conventional stationary door and window screens and virtually eliminates the need for cleaning.

Looking to screen a unique outdoor space? Mirage Screen solutions include porches, poolhouses, gazebos, garages, RVs, mobile homes, and boat applications.

A World of Colors...

Mirage Screens feature the latest architectural colors in home decorating trends. We use the highest performing paints and powder coating materials, formulated to exceed one of the toughest standards in the industry for UV and salt spray resistance, AAMA 2604.

All Mirage Screens are professionally powder coated in-house to ensure durability and quality of finish.

Choose from over 50 powder coated colors

- 7 standard colors

Colors may not appear exactly as shown. Contact your authorized Mirage dealer for proper color samples. Please note an additional charge applies to our designer, wood grain and custom color program(s).

- 10 wood grain colors
- 35 Designer Collection colors

To view our complete color program visit www.miragescreensystems.com

Standard Features...

- Adjustable Spring Tension
- Super Magnet – a corrosion resistant, secure latch system ideal for coastal areas
- Sturdy Aluminum Rollertube for smoother operation
- Deep track to prevent screen blowout
- Slide Bolt to hold inactive side of a French/double door in place

Optional Features...

- Mirage Latch Handle – a proprietary handle and integrated latch that is easily operated by all ages. No more tugging needed to release a magnetic catch.
- Bumper Stripping – protects small fingers from being accidentally pinched
- Decorative Decal design options for mesh visibility
- A variety of mesh colors and options

Patent pending handle exclusive to authorized Mirage Dealers.

Good, Better, Best...

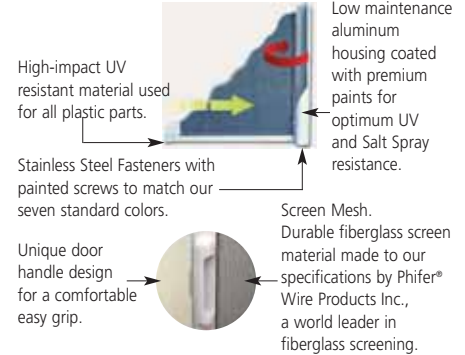

Mirage has always focussed on product quality and design – Mirage is the retractable screen with the longest trouble free life available. Mirage is truly built to last!

- Components that are engineered to last
- Superior powder coating
- Ultra-smooth screen guides made from self-lubricating space-aged plastics

Mirage routinely cycle tests its product 250,000 times, the equivalent of 69 years of use if used 10 times daily!

Precision Engineering...

Screen Retracts into its own Compact Housing
